

FROM THE EDITOR IN CHIEF

Welcome to a new issue of PGLJ ! **This issue brings an entire new feel to PGLJ with redesigned cover and quality of print; Hope you all will enjoy reading ...:-)**

Due to COVID-19 pandemic and lot of working restrictions we have combined “July - September” and “October-December” issue.

The highlights of this issue are

- **Invited Review article** which gives a detailed and in depth review of Pediatric Abdominal Tuberculosis.
- **We are delighted to share the abstract of Award winning papers in the recently concluded ISPGHAN econ 2020. The level of presentation was of the highest standard from these budding pediatric gastroenterologists. Kudos to them and their mentors.**
- We have case report on Pancreatic adenoma which add to academic quotient of the journal

Section of **Journal Watch** has two parts. First section dealing with international publications related to different aspects of Pediatric Gastroenterology. The second section incorporates article published by ISPGHAN members in between (**July 2020 – September 2020**). We would request all members to send us information about their publication so that we can continue to incorporate them in future issues.

We request, you the readers to become an author and share your thoughts and research with the national and international community through this journal. We also request you to pass on the message to Trainees (DMs, FNBS, PDCCs, and Fellowships) for it will be a great place for them to start their academic venture. **Kindly submit your contribution in MS word only at: pglj.ispghan@gmail.com**
