

FROM THE EDITOR IN CHIEF

Welcome to the Fourth and Last issue of PGLJ for year 2021! With continued efforts of all contributors, reviewer and readers PGLJ has made a place for itself in the academic arena of pediatric gastroenterology worldwide. We will continue to strive and work hard so that PGLJ becomes a resource that you can depend on to keep up with the rapidly evolving field of Pediatric Gastroenterology.

This issue continues with philosophy of change started in the previous issue. We hope that the clinical synopsis section has provided the readers brief yet useful insight into topics. In this issue we have included topics like Approach to Abdominal Lymphadenopathy , Approach to Liver related Ascites and Drug Review on Rifaximin. We would request all members to send us information about their publication so that we can continue to incorporate them in future issues. Hope you all will enjoy reading :-)

We request, you the readers to become an author and share your thoughts and research with the national and international community through this journal. We also request you to pass on the message to Trainees (DMs, FNBs, PDCCs, and Fellowships) for it will be a great place for them to start their academic venture. Kindly submit your contribution in MS word only at: pglj.ispghan@gmail.com

As this is the last journal by me as the Editor in Chief I would like to bid adieu on a happy note. I fully acknowledge and understand that I may not have done a perfect job and errors and mistakes might have been committed. However my colleagues in editorial board for last 4 years and the valued readers have always helped me to improve by giving a positive feedback. I am confident that that the new editorial board will take the journal to new academic heights in time to come.

Dr Shrish Bhatnagar

Editor in Chief PGLJ 2020-21

Editors PGLJ 2020-21

Dr Rajeev Khanna, Dr Rishi Bolia, Dr Moinak Sen Sarma, Dr Rimjhim Shrivastava, Dr. Prasanth K.S
